List of Pains  
05-12-2021

1. Round-about at the campus intersection of 11th and Grant
2. Before COVID, professors who relied on in-person resources (lack of utilizing D2L in the information technology age). I feel next fall this will be a problem again.
3. Product Warranties are easily lost or not honored at all. It's almost as if companies want you to lose the little piece of paper with your warranty; or even forget about it all together.
4. Everyone is required to do their taxes, the majority of people attend High School, why aren't we taught how to do our taxes there?
5. Bozeman City dog leash laws; my dog doesn't need/like one.
6. Why do I have to pay to continue to play music through the YouTube app on my iphone when I leave the app...
7. My roommate wants to share Top Ramen and pours out the broth. This should be my number 1...
8. College aged people who rent apartments are not known to be responsible, so why are the living spaces built of cheap material and not invincible material... it is going to get replaced at some point... like all four stop signs on my corner, the trash bins, glass doors to the gym.. I am not asking for nice things, just things that cannot break.
9. Salt on the roads to melt the ice. My home town gets twice as much snow and salt is banned because it destroys vehicles. Have you ever seen a 5 year old vehicle from the east coast? Rusted and trash...
10. 15 days to slow the spread.... We are going on month 15.
